

PROFILE

Computer Science student and independent mobile developer. Creator of a published app with 1,000+ downloads. Passionate about software architecture, complex simulations, and building user-centric products. Eager to combine my academic background and problem-solving skills in a dynamic software engineering environment.

Marco Signore

COMPUTER SCIENCE STUDENT

EDUCATION

University of Trento

Bachelor Student in Computer Science
2022 - Present

ITIS Alessandro Rossi

High School Diploma in Computer Science
2017 - 2022

PERSONAL PROJECTS

Dunk Manager - iOS & Android Game

Published mobile app with 1,000+ downloads and on Google Play and App Store.

Developed entirely in Kotlin Multiplatform (KMP) and Compose Multiplatform targeting both Android and iOS with a single codebase.

Built a complex play-by-play simulation engine, an AI-driven trade market, and player progression algorithms.

WORK EXPERIENCES

Supermercato Emisfero

Sales Assistant, Electronics Department
September 2023 - June 2024

Supermercato Tosano

Cashier (July 2022 - July 2023)

Strengthened problem-solving, stress management, and organizational skills in fast-paced environments.

Developed strong customer communication and teamwork abilities.

OTHER EXPERIENCES

International Work Experience

Web Developer - Erasmus+ (June 2021 - July 2021)

Designed and developed a complete responsive website for a local Portuguese company in Lisbon, collaborating in an international environment.
